About Emgold

Emgold is a gold and base metal exploration company focused on Nevada and Quebec. The Company’s strategy is to look for quality acquisitions, add value to these assets through exploration, and monetize them through sale, joint ventures, option, royalty, and other transactions to create value for our shareholders.

In Nevada, Emgold’s Golden Arrow Property, the core asset of the Company, is an advanced stage gold and silver property with a well-defined measured and indicated resource. New York Canyon is a base metal property subject to an Earn-in with Option to Joint Venture Agreement with Kennecott Exploration, a subsidiary of Rio Tinto Plc (**NYSE:RIO.N**). Kennecott has options to earn up to a 75% interest in the property by making up to US\$22.5 million in expenditures, after which a joint venture would form. Buckskin Rawhide East is a gold and silver property leased by Rawhide Mining LLC, who operate the adjacent Rawhide Mine and therefore represents a royalty opportunity for the Company.

In Quebec, the Casa South Property, is an early stage gold property adjacent to Hecla Mining Corporation’s (**NYSE:HL**) operating Casa Berardi Mine. The East-West Property is a gold property adjacent to and on strike with Wesdome Gold Mine Ltd.’s (**TSX:WDO**) Kiena Complex (past producing Kiena Mine) and O3 Mining Corporation’s (**TSX:OIII**) Marban Block (past producing Marban, Norlartic, and Kierrans Mines). Emgold also has a 1% NSR in the Troilus North Property, part of the Troilus Mine Property being explored by Troilus Gold Corporation (**TSX:TLG**). Note that the location of Emgold’s properties adjacent to producing or past producing mines does not guarantee exploration success at Emgold’s properties or that mineral resources or reserves will be delineated.
